

PITCHING RESOURCES

A great pitch should be complemented by a presentation deck to capture your audience and offer some further information about you and your business.

Below is a list of resources to help you craft a winning pitch deck.

Some of the top cyber threats include malware, web-based attacks, phishing, web application attacks, spam, denial-of-service attacks (DDoS), identify theft, data breach, insider threats, botnets, physical manipulation damage, theft, and loss, information leakage, ransomware, cyberespionage and cryptojacking.

You can protect yourself online by following this checklist:
